

# CN 110D

## *Century Series Rough Terrain Crane*

[dzwigi24.pl](http://dzwigi24.pl)

**PPM Cranes, Inc., manufacturer of P&H mobile cranes,**  
is dedicated to designing and building the best mobile cranes in the business.

- CN 110D is the latest in compact, cab-down crane technology. It's perfect for lifting in industrial plants, construction sites, and unimproved storage yards where 4-wheel steer/drive is required.
- Cab-forward design cuts down on the acrobatics needed to get in and out of the cab ... a major benefit for in-plant operation. The design also gives you a better feel for the road.
- You get great all-around visibility for confidence in pick and carry operations.
- Electronic load moment indicator is standard equipment. You get instant and precise information about the crane's capacities and limits under any load conditions.

The CN 110D incorporates the latest rough terrain crane technology. It's one in our line of quality cranes, backed by quality customer support and a firm commitment for the long haul. We can back up our philosophy as part of the strongest group of lifting companies in the world. The members of the Legris Industries lifting group have sold more cranes of their type worldwide than any other manufacturer ... ever.

# CN 110D

## Century Series Rough Terrain Crane

Pick and carry capacity of 18,000 lbs. gives you some real lifting muscle on site.

[dzwigi24.pl](http://dzwigi24.pl)

For in-plant operation, size is an issue. The CN 110D is less than 8' wide and under 8'6" tall.

Three steering modes, front 2-wheel steer, "crab" steer, and 4-wheel coordinated steer, are all controlled via the steering wheel.

Optional front-mounted tow winch comes in handy for certain jobs.

Rhino hook lets you lift even when there's limited headroom above the load.

Two-section, full power boom requires no derate for duty cycle work. Overhang is minimal, so you can easily maneuver the CN 110D in cramped situations. Optional 15' swing-around extension increases vertical reach to over 50'.

Tough winch delivers maximum line pull of 12,000 lbs., highest in its class.

Standard diesel engine and rugged industrial transmission give this 4x4 machine the rough terrain capabilities you need on construction sites and in the plant.

Standard side platforms let you carry bundles of pipe or lumber rapidly through the work site.

Fold-down outriggers with attached pads let you set up fast.

### The Pride Plus warranty ... best in the business.

**Pride Plus** ... the most comprehensive warranty in the business. Our standard warranty covers the entire crane for 12 months or 2,000 hours of operation, whichever occurs first. Lower main frame, outrigger box and beam structures, upper main revolving frame, and boom section weldments are covered for 5 years or 10,000 hours of operation.

### Parts and Service Support ... fast, efficient.

**Pride Plus Express** ... a computerized program for instant access to current parts information. Availability. Shipping. Qualified parts. Superseded parts. On-line 24 hours per day, 7 days per week.

**MAPS** ... a computerized search system reviews and identifies parts availability at distributor locations around the world. If you need a part for a P&H crane, MAPS will help find it for you.

**CARE** (Crane Appraisal Repair Evaluation) ... CARE determines a crane's operational condition, resale value or trade-in value. Completed inspection booklet can be used to quote prices for parts and repairs.

**Cash Value Insurance** ... CVI, a division of PPM Cranes, guarantees the distributor a specific resale price on P&H mobile cranes traded in on new P&H mobile cranes.

**Flex Financing "Plus"** ... three innovative financing plans to help you buy your crane: interest-free financing for 12 months; 1% below prime for 24 months; lock in at today's low rate until the year 2000.

*Due to constant improvement and engineering progress, PPM Cranes, Inc. reserves the right at any time to change information provided herein, including specifications, design or testing procedures without notice and without incurring obligation.*
